

MEASURE OF THE DEAN OF THE FACULTY OF ECONOMICS No. 312E dated 7 October 2026 – Change in the Amount of the Basic Doctoral Scholarship and a One-off Scholarship for Doctoral Students

PID: JUCBX00T8MAO
Ref. No.: JU/2026/022986

Article 1 Introductory Provisions

- 1) This Measure of the Dean lays down the rules under which the monthly amount of the Basic Doctoral Scholarship is increased or reduced depending on the fulfilment of study obligations, and sets out the conditions for the award of a one-off scholarship for outstanding publication or project activity.
- 2) This Measure shall apply only to students who have been awarded the Basic Doctoral Scholarship (Article 2) but have not been awarded the Supplementary Equalisation Scholarship pursuant to Article 4(5) of Measure of the Dean of the Faculty of Economics No. 215/2022 on Ensuring Studies in Doctoral Study Programs, as amended (hereinafter referred to as the "DSP Measure").

Article 2 Basic Doctoral Scholarship

The Basic Doctoral Scholarship shall be awarded ex officio to students who meet the conditions under Article 4(3) of the DSP Measure, in the monthly amount specified therein, unless otherwise provided in Article 3 or 4. The Basic Doctoral Scholarship shall be awarded for the relevant academic year, or for the part thereof during which the student is expected to continue meeting the conditions for its award, including the vacation period; however, for no more than 12 months.

Article 3 Increased Amount of the Basic Doctoral Scholarship

- 1) For the purpose of awarding the scholarship to an individual student, the amount of the Basic Doctoral Scholarship specified in Article 4(3) of the DSP Measure shall be increased by CZK 1,000 for each course included in the student's

- Individual Study Plan (hereinafter referred to as the "ISP") that the student has completed ahead of schedule.
- 2) A course shall be deemed to have been completed ahead of schedule if it is completed in the academic year preceding the academic year in which it is to be completed under the ISP, or earlier.
 - 3) The increased amount of the basic doctoral scholarship, in relation to a particular course, shall be applied on the basis of a student's application submitted via IS/STAG, with effect from the month following the date on which the decision to increase the basic doctoral scholarship becomes final, and shall remain in force for the award of the basic doctoral scholarship in subsequent academic years.

Article 4

Reduced Amount of the Basic Doctoral Scholarship

- 1) For the purpose of awarding the scholarship to an individual student, the amount of the Basic Doctoral Scholarship specified in Article 4(3) of the DSP Measure shall be reduced by CZK 1,000 for each course included in the student's ISP for completion in the preceding academic year that the student failed to complete in that academic year or earlier.
- 2) In respect of a particular course, the reduced amount of the Basic Doctoral Scholarship shall first apply to the award of the Basic Doctoral Scholarship for the academic year following the academic year in which the student failed to complete the course and shall continue to apply to awards of the Basic Doctoral Scholarship in subsequent academic years, but only for as long as the course remains uncompleted. This is without prejudice to the procedure under paragraph 3.
- 3) If the student subsequently completes a course that had remained uncompleted, the amount of the awarded Basic Doctoral Scholarship shall, upon the student's application submitted via IS/STAG, be increased accordingly, i.e. by CZK 1,000 for each course subsequently completed, with effect from the month following the date on which the decision to increase the Basic Doctoral Scholarship becomes final.

Article 5

One-off Scholarship for Outstanding Publication or Project Activity

- 1) Irrespective of the amount of the Basic Doctoral Scholarship awarded, a student referred to in Article 1(2) shall be awarded a one-off scholarship:
 - a) up to CZK 4,000 for each peer-reviewed scientific publication with an impact factor (IF) published during the student's doctoral studies, recorded in the USB personal bibliographic database (hereinafter referred to as "OBD") and affiliated with the FE USB,

- b) up to CZK 2,000 for each peer-reviewed scientific publication indexed in the Scopus database, recorded in OBD and affiliated with the FE USB,
 - c) CZK 2,000 for serving as the principal investigator of an individual research project of the Grant Agency of the University of South Bohemia in České Budějovice (GA USB), provided that the project commenced during the student's doctoral studies;
 - d) up to CZK 4,000 for serving as the principal investigator or co-investigator of a research project for which USB is the beneficiary, recorded in the Central Register of Projects (CEP), provided that the project commenced during the student's doctoral studies.
- 2) The scholarship under paragraph 1 shall be awarded upon application submitted via IS/STAG. Before granting the application, the Dean shall request an opinion from the Subject Area Board on the quality or significance of a publication under paragraph 1(a) or (b) for the academic community, or on the significance of the project for the FE USB and the extent of the applicant's involvement in the project under paragraph 1(d).
- 3) The scholarship under paragraph 1(a) or (b) may also be awarded to a graduate, provided that the relevant publication was published at a time when the graduate met the conditions set out in the introductory sentence of paragraph 1.

Article 6

Final Provisions

- 1) This Measure shall enter into force and effect on the date of its promulgation.
- 2) Applications under Article 4(3) and Article 5(2) may also be granted where the conditions for granting them were met before this Measure entered into effect, provided that they were not the subject of an earlier favourable decision.
